DNA REPLICATION

Choose your own colors and create a key!
Then color all the parts!

Color the Thymine (T)

Color the Adenine (A)
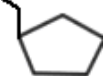

Color the Guanine (G)
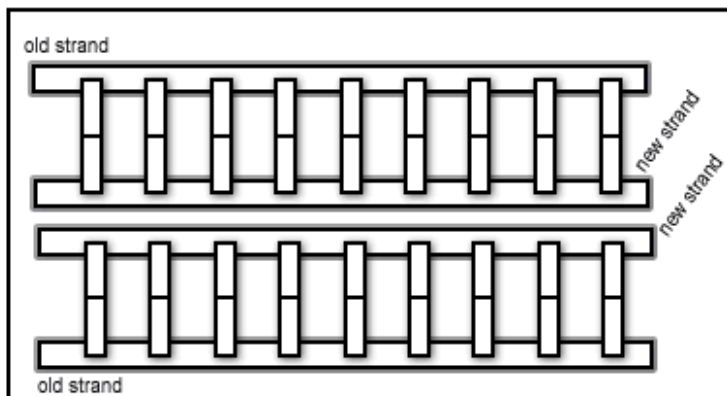

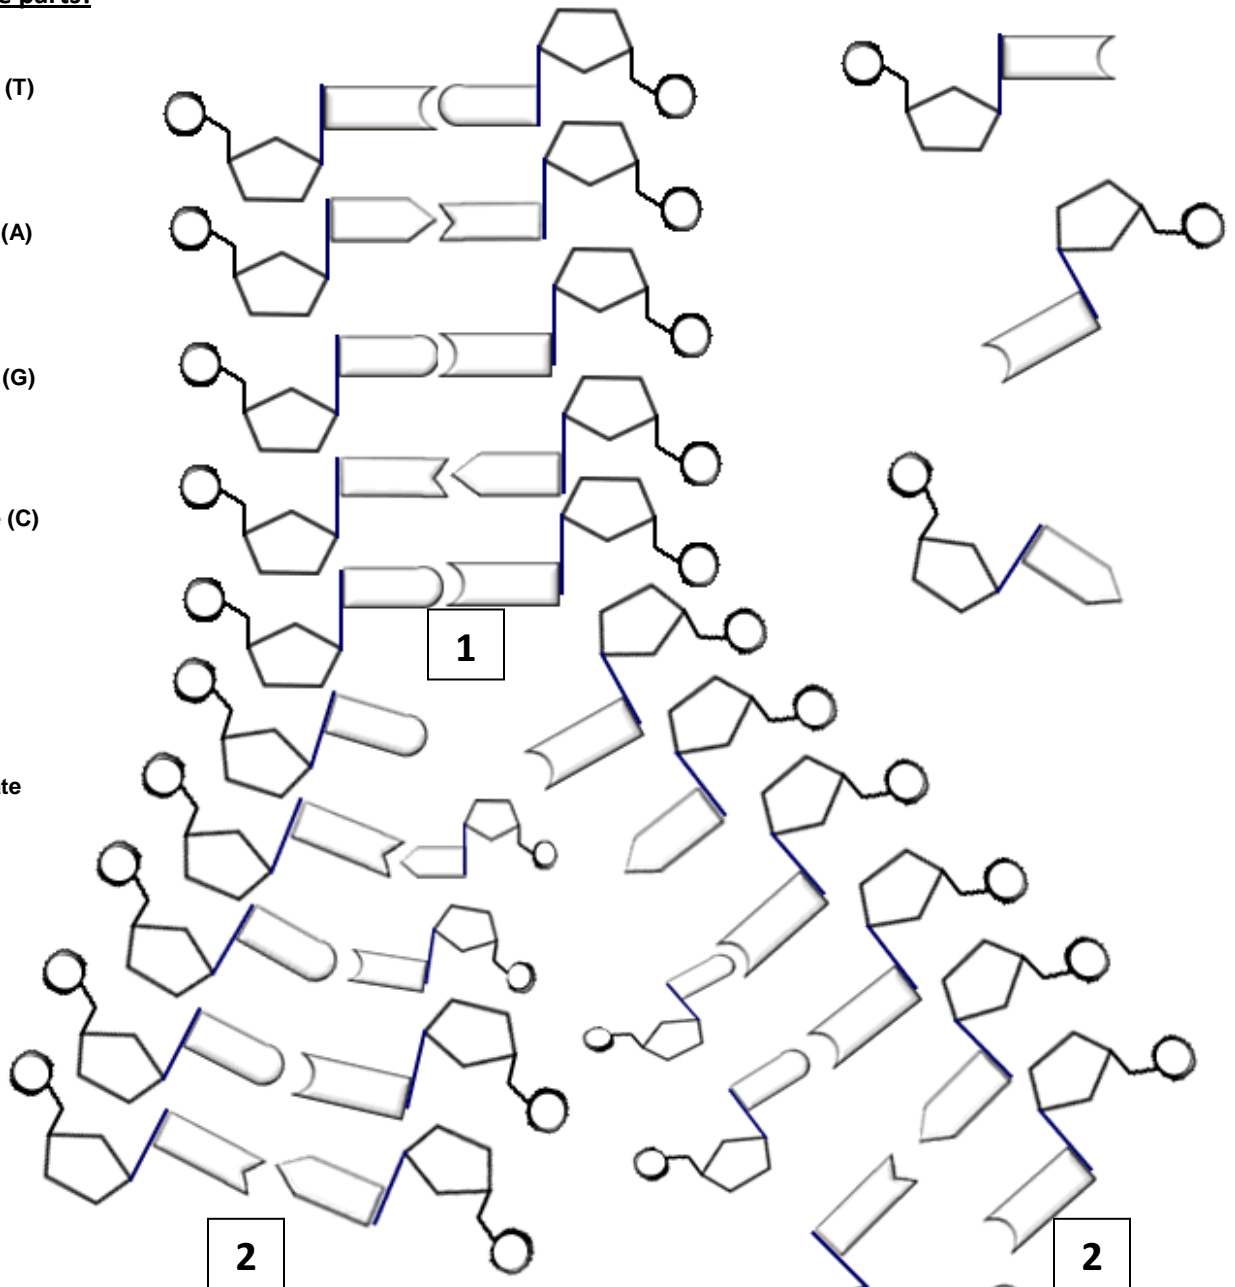

Color the Cytosine (C)

Color the Sugar

Color the Phosphate

Describe what is happening at each of the following: (Include what _proteins_ are involved)

1.

2.

3.

Replicate the following strands of DNA:

1. **ATTAGCGA**

2. **TAGCGCTAG**

3. **GATAGAG**

4. **CGCTGAGCTA**

5. **CGATATCGAG**

6. **GAGTAGACC**
