

Illustration by Nikki Tankersley.

1. What do the arrows in this food chain represent?
2. Where does the food chain start?
3. How do you know this?
4. What does the term "scavenger" refer to?

1. How is this food web different from the food chain?
2. Name a food chain within this food web.
3. What is the most important part of the food web? How do you know?
4. Look at this web and determine what herbivore, omnivore, and carnivore means.
5. The million dollar question: **According to this food web, what will happen if the algae disappear due to the dispersants as predicted by the scientists?**
