

Name: _____

What's to know about H₂O?

Using the information given to you and what you already know about water answer the questions and fill out the graphic organizer below. Name each property, define what it means in your own words, and talk about what unique things that property allows water to do.

1. **Draw a picture** of two water molecules that shows how the oxygen and hydrogen are bonded, and why two water molecules would bond to each other, don't forget to show polarity!
